before 6th March 2018

GTK round: 21st March 2018

University final round:  
*12th April 2018*

## The aim of the competition

The aim of the competition is to offer an opportunity for students to demonstrate and improve their talents. The event provides a chance for contestants to exercise their public speaking skills in contrast with their scientific work, thus helping them improve their research and public speaking skills.

## Aspects of evaluation

The presentations' visual aspects, the use of technical tools and the style are equally important. The audience can also vote for the contestants so the judges can evaluate the overall interest generated by the presentations and the impression they made. Extra points can be scored by speech tone, gestures and body language. The time limit (maximum 7 minutes per presentation) shall be strictly observed. In case of exceeding the time limit the presenter will not be allowed to continue the lecture.

Similarly to last year's competition the audience will vote on the best presentation. We trust that the event will attract considerable media attention and also spark the interest of many university students. The winners of the competition will receive money prizes. The winners will also be presented with official certificates at the event organized to hand out the SZTE Talent scholarships.

**The floor is yours, take it!**
