# European Statistics meet the needs of users

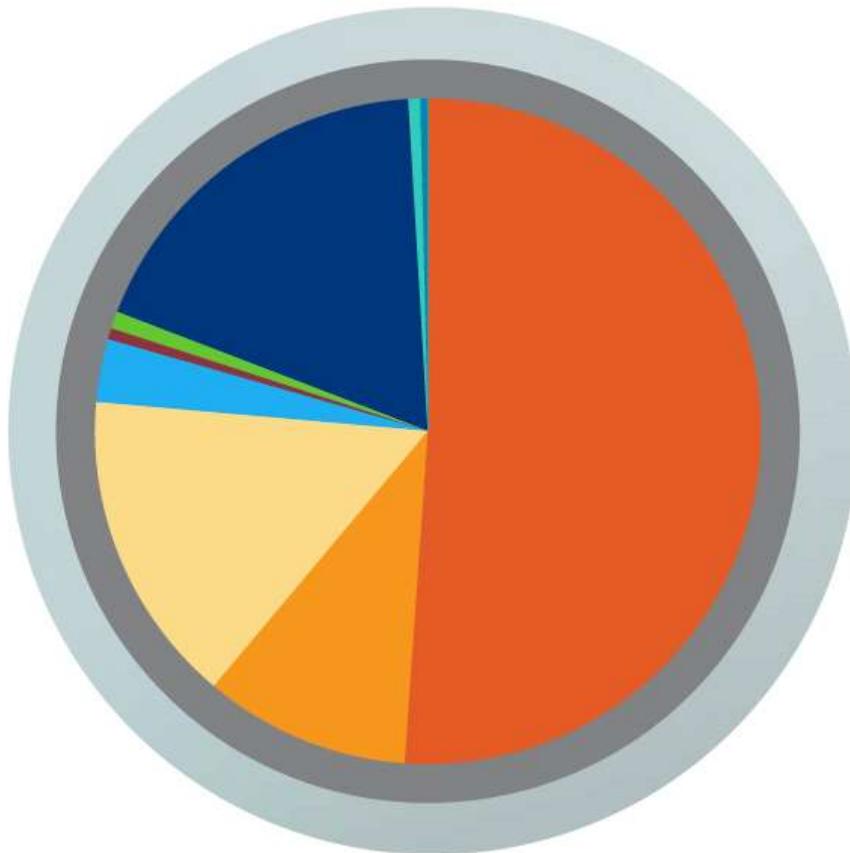

## Policies

- Cohesion policy
- Rural development
- Urban agenda
- Sustainable Development Goals

## Target areas

- NUTS level 2 regions
- Rural areas
- Cities

# Cohesion Policy Funding 2014-2020

- €182.2bn  
Less developed regions
- €35.4bn  
Transition regions
- €54.3bn  
More developed regions
- €10.2bn  
European territorial cooperation
- €0.4bn  
Urban innovative actions
- €3.2bn  
Youth employment initiative (top-up)
- €63.3bn  
Cohesion fund
- €1.6bn  
Specific allocation for outermost and sparsely populated regions
- €1.2bn  
Technical assistance

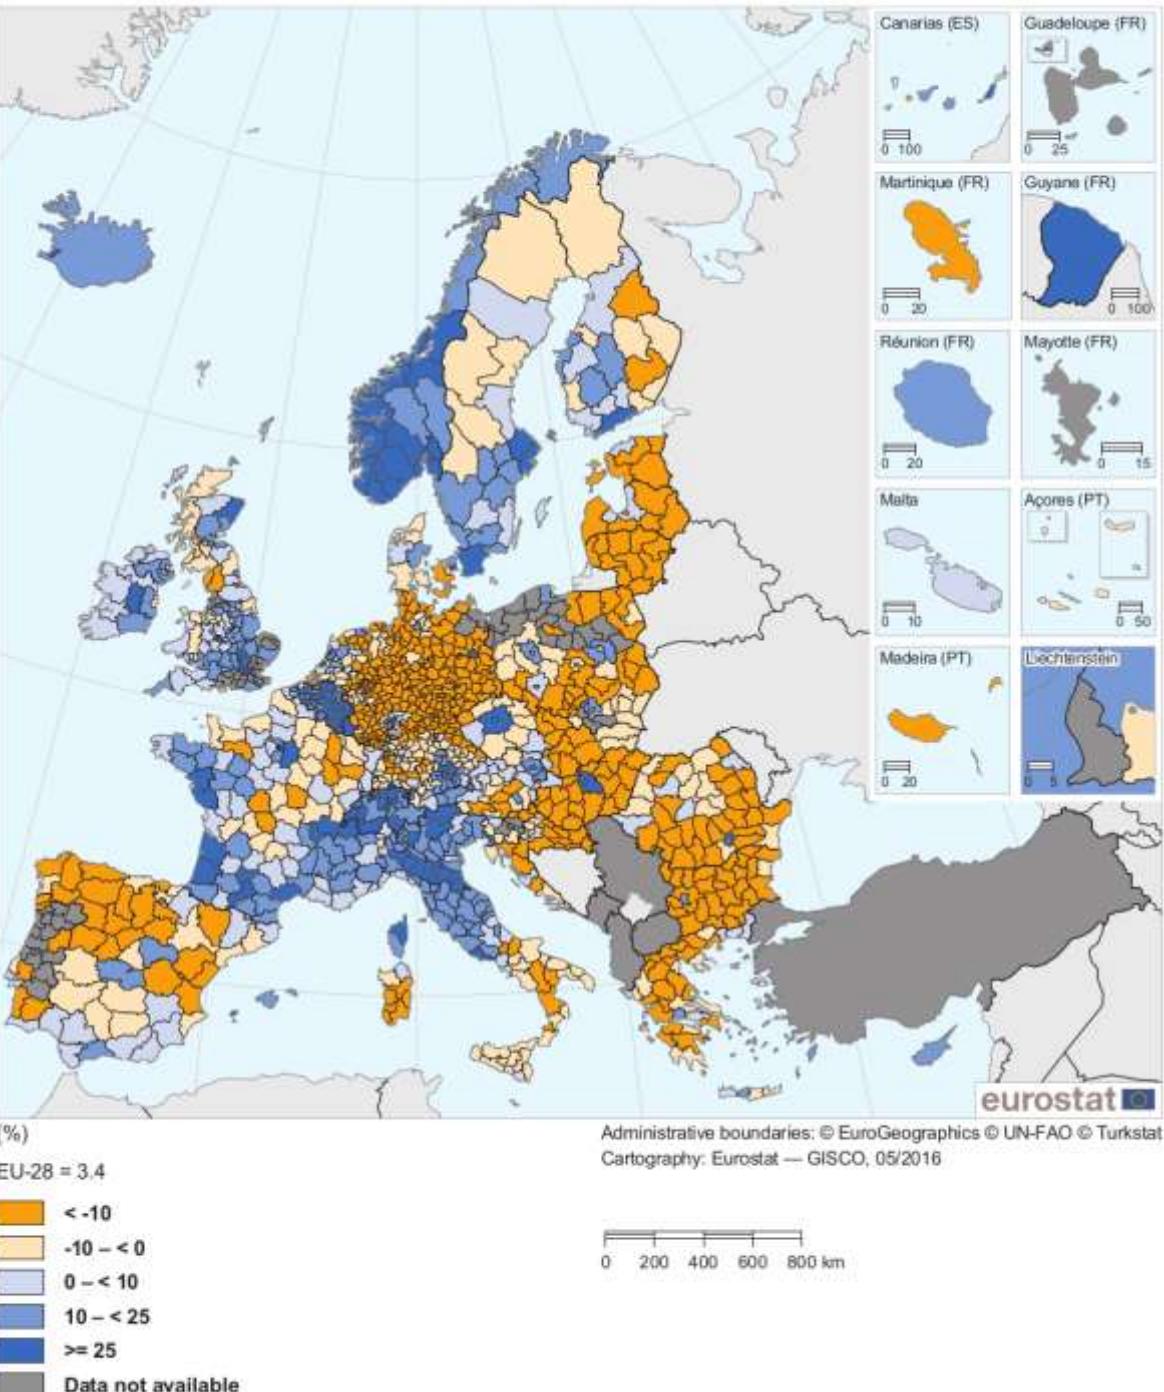

# Regional statistics by NUTS regions

- Population
- Health
- Economy
- Education
- Labour market
- Structural business statistics
- Research and innovation
- Income and living conditions
- Digital economy and society
- Tourism
- Transport
- Agriculture

## What's new?

- Population projections
- Timeliness: T+12 months, ESA 2010
- Business demography
- Improved coverage at NUTS level 2

# Projected percentage change of the population, by NUTS 3 regions, 2015–50

# SUSTAINABLE DEVELOPMENT GOALS

**1** NO POVERTY

**2** ZERO HUNGER

**3** GOOD HEALTH AND WELL-BEING

**4** QUALITY EDUCATION

**5** GENDER EQUALITY

**6** CLEAN WATER AND SANITATION

**7** AFFORDABLE AND CLEAN ENERGY

**8** DECENT WORK AND ECONOMIC GROWTH

**9** INDUSTRY, INNOVATION AND INFRASTRUCTURE

**10** REDUCED INEQUALITIES

**11** SUSTAINABLE CITIES AND COMMUNITIES

**12** RESPONSIBLE CONSUMPTION AND PRODUCTION

**13** CLIMATE ACTION

**14** LIFE BELOW WATER

**15** LIFE ON LAND

**16** PEACE, JUSTICE AND STRONG INSTITUTIONS

**17** PARTNERSHIPS FOR THE GOALS

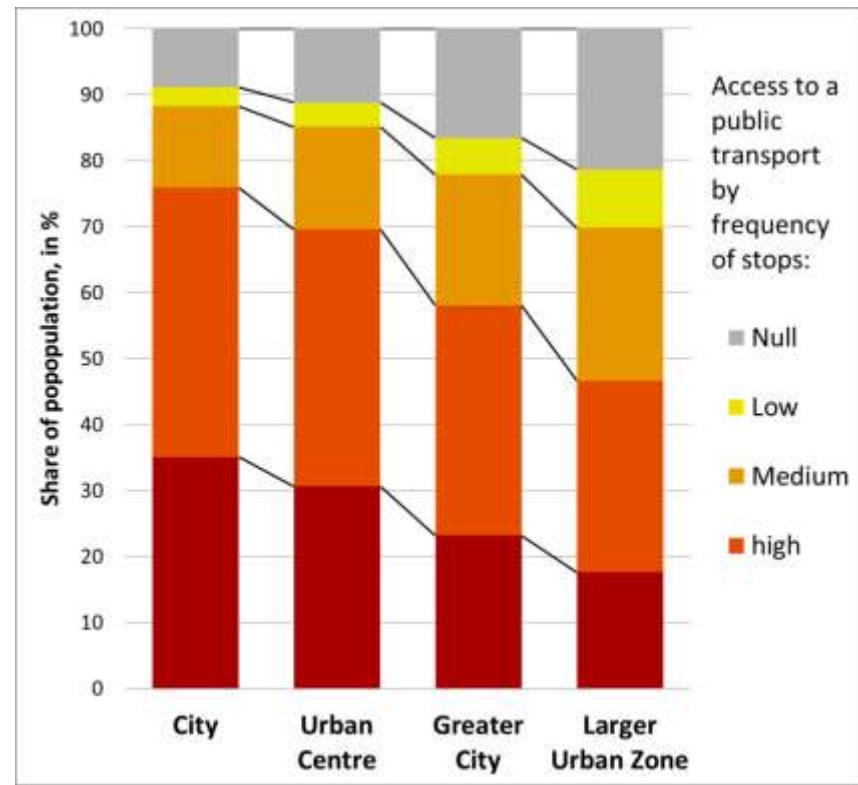

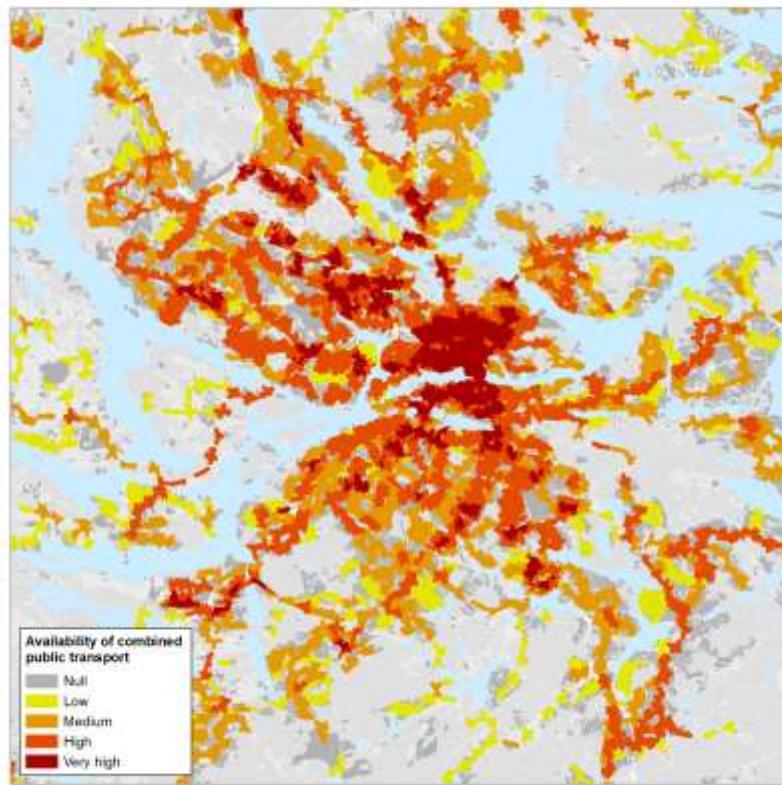

## Goal 11 - Transport target and indicator

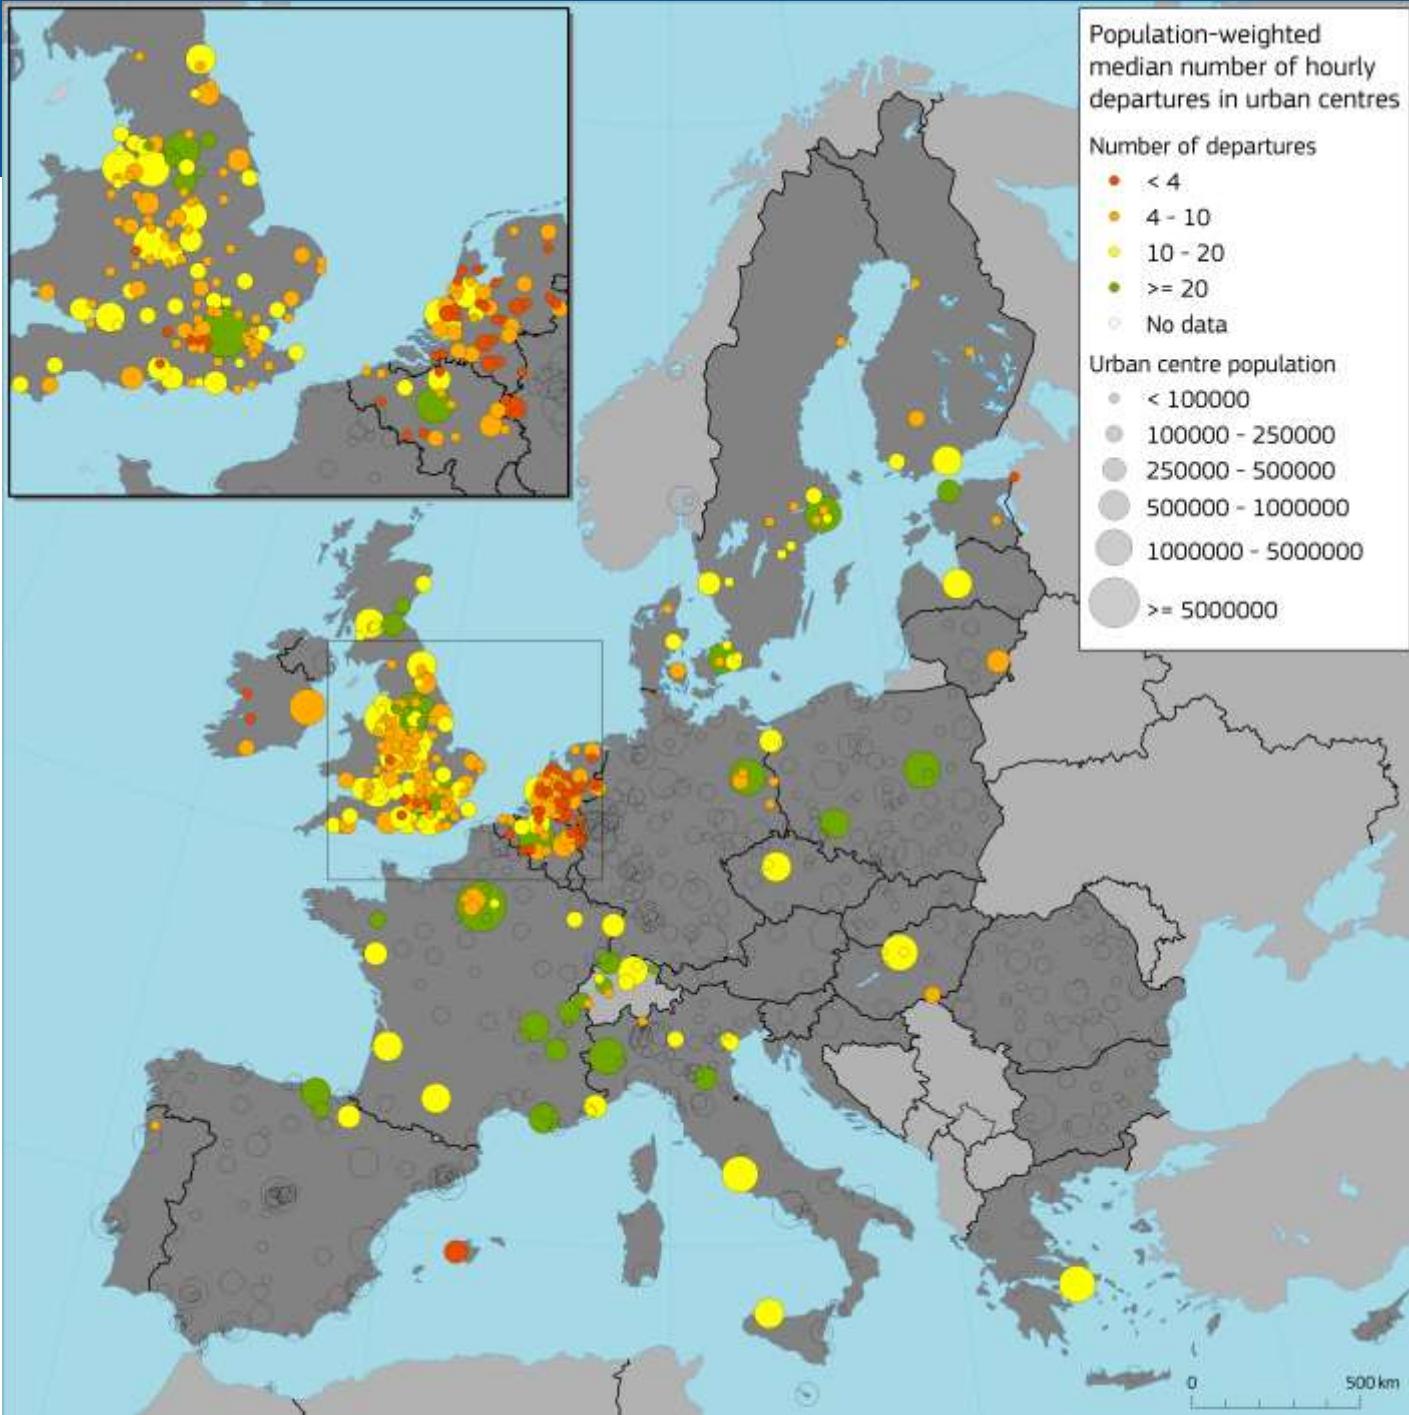

- 11.2 By 2030, provide access to safe, affordable, accessible and sustainable transport systems for all, improving **road safety**, notably by expanding **public transport**, with special attention to the needs of those in vulnerable situations, women, children, persons with disabilities and older persons
  - **11.2.1. Proportion of the population that has convenient access to public transport, disaggregated by age group, sex and persons with disabilities**

# Stockholm: areas and population by access to public transport and its frequency

Source: H. Poelman, L. Dijkstra: Measuring access to public transport in European cities, Regional Working Paper 2015

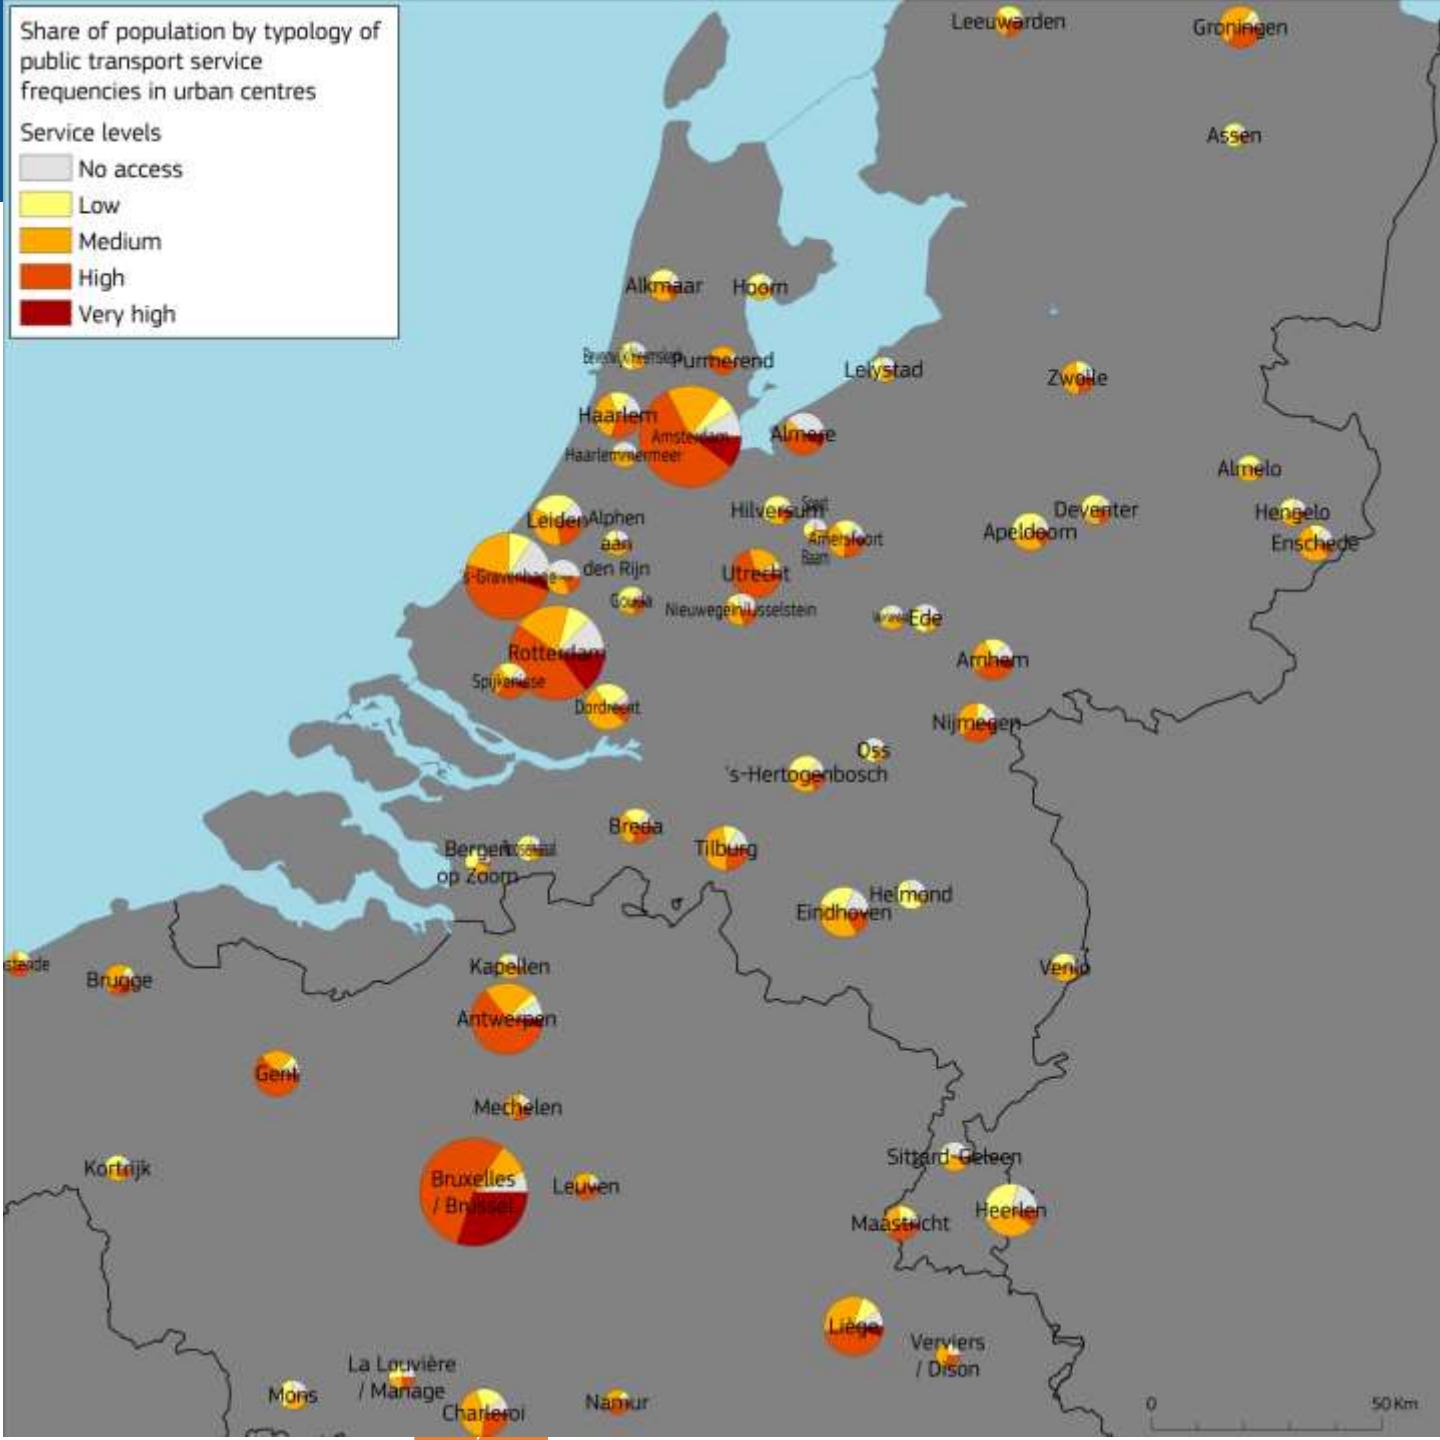

# Access to public transport

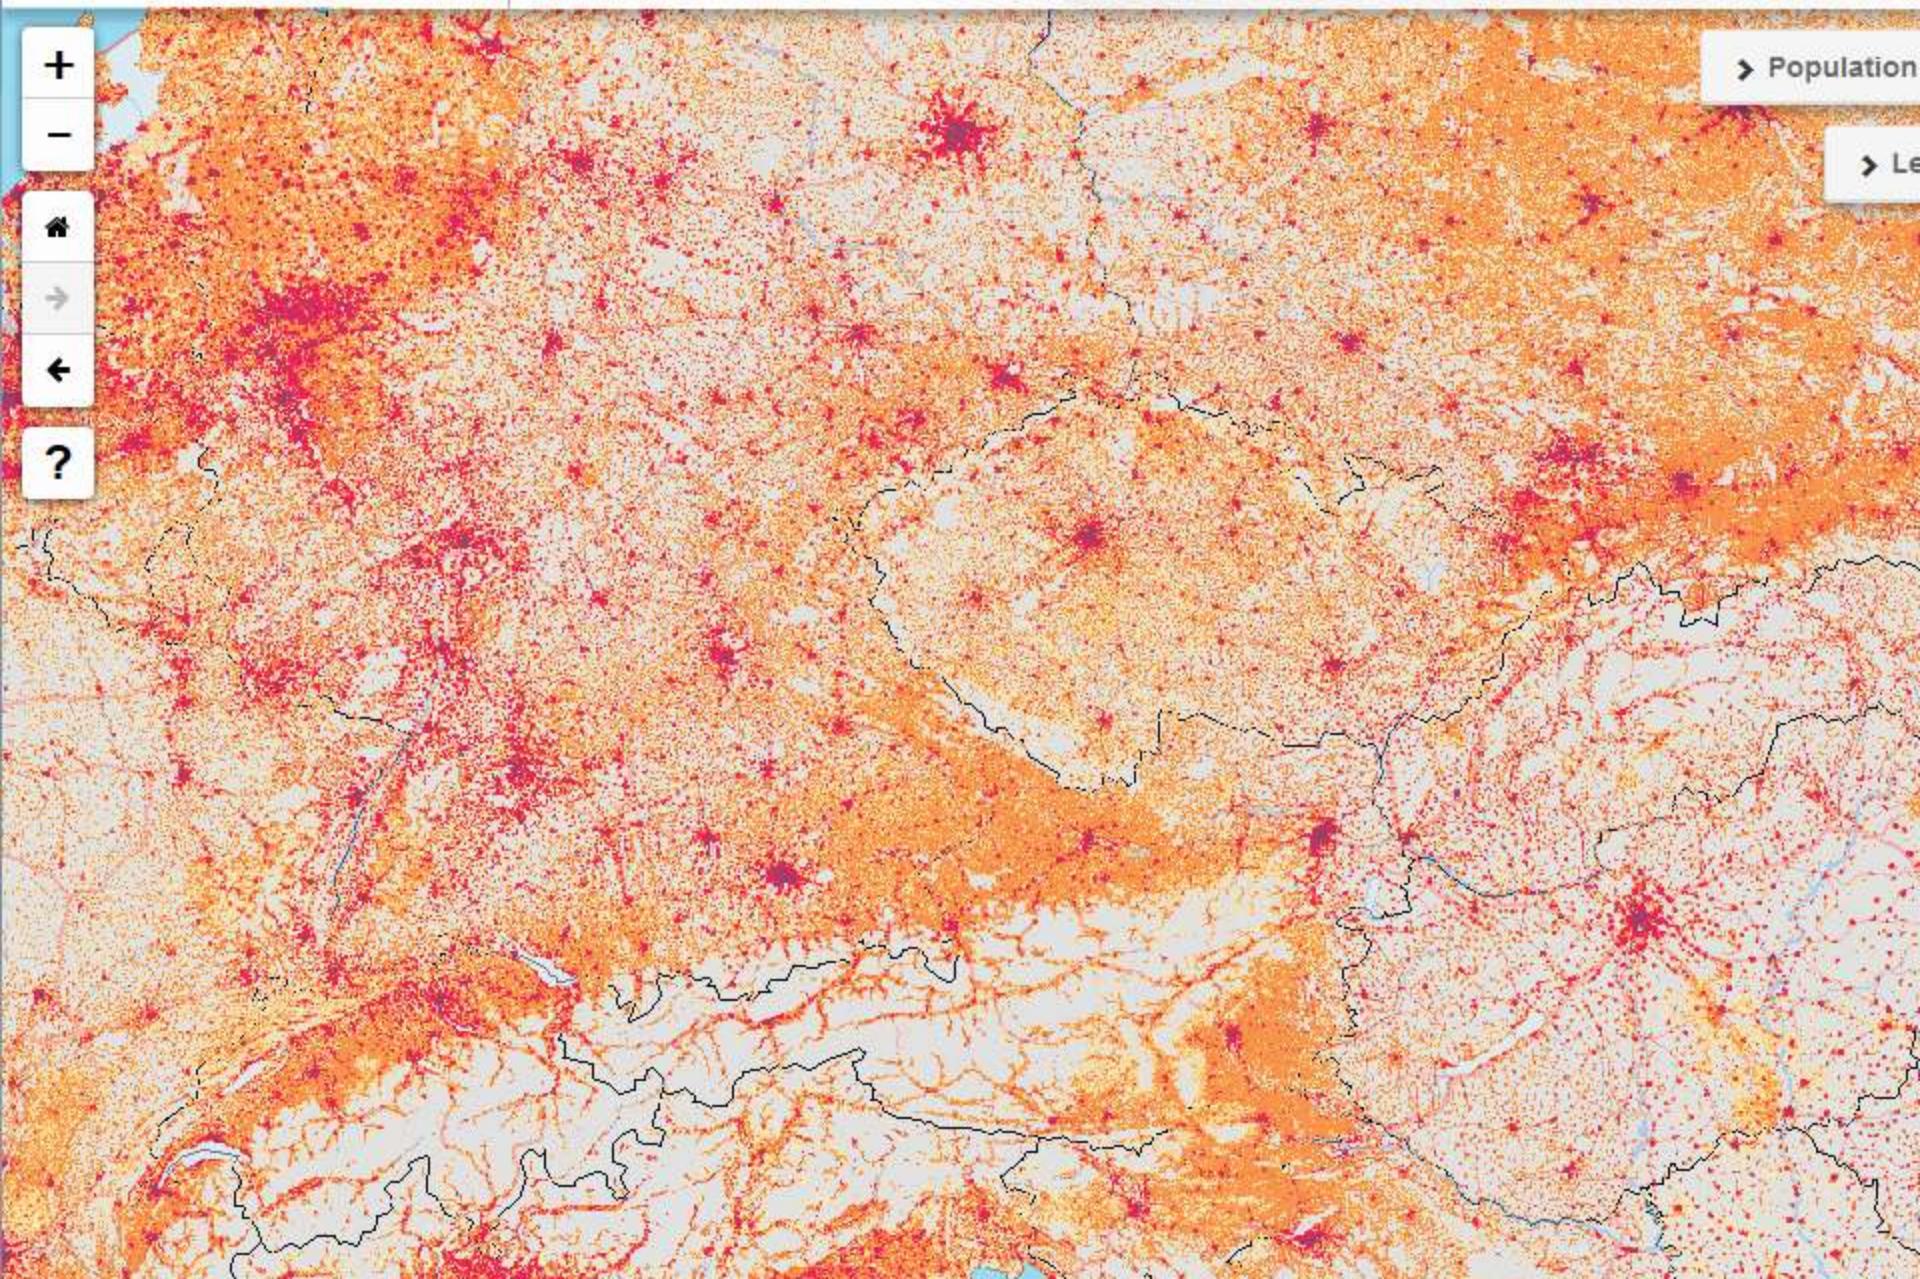

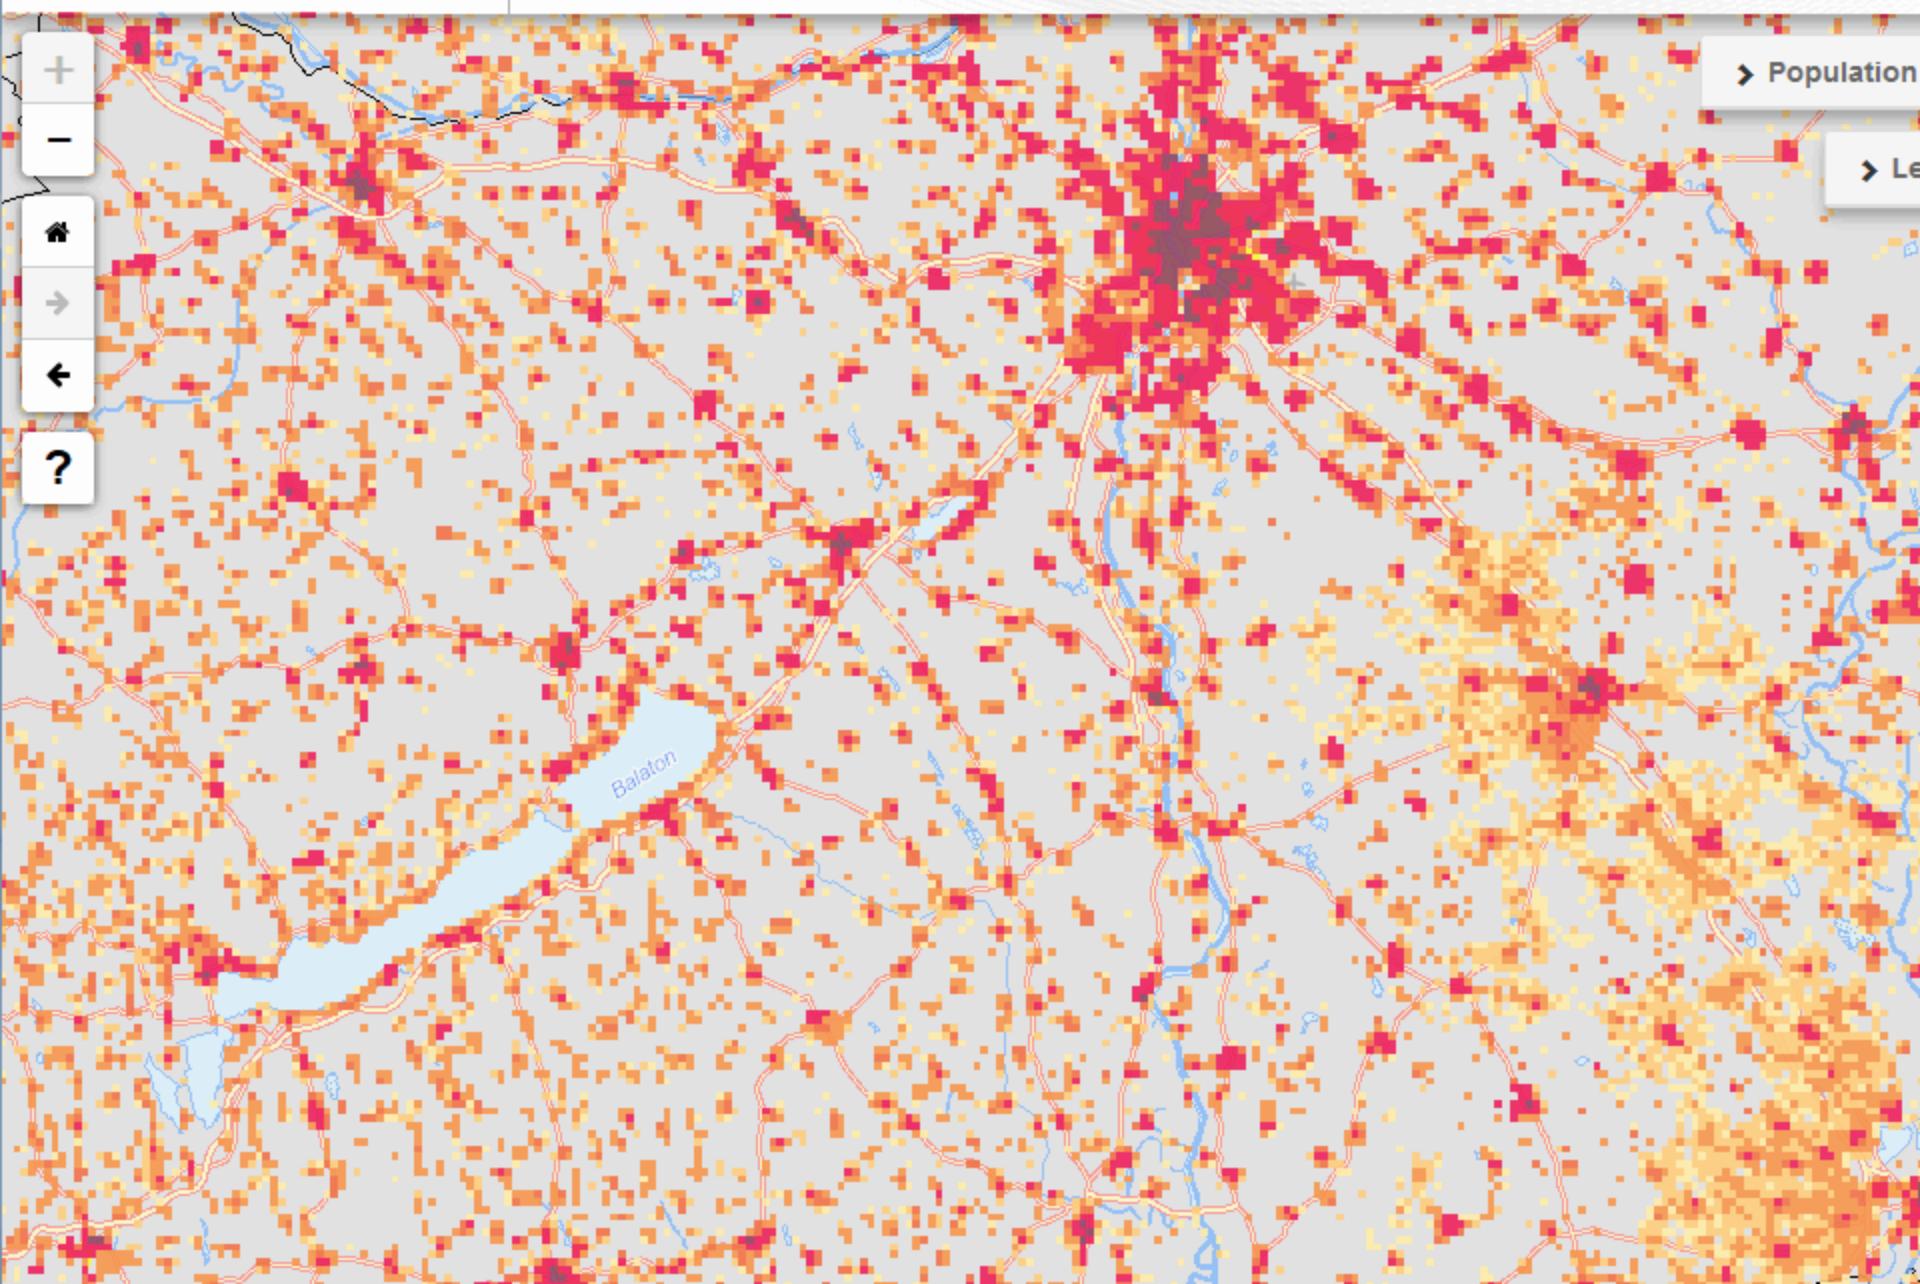

Share of population by typology of  
public transport service  
frequencies in urban centres

Service levels

- No access
- Low
- Medium
- High
- Very high

# Population grid

- Population grids from point-based census type microdata will be a unique dataset
- High quality, official statistics not available from other sources
- Harmonised, non-administrative, neutral system for European purposes
- Comparability and time stability ensures manifold use cases

# Policy use cases

- Territorial impact assessments of EU policies look into the risk of exposure of certain areas/populations to policy options and the potential impacts (e.g. exposure to pollution)
- Evaluating the exposure to risks and man-made or natural disasters (day- and night-time population)
- Analysis of access to services and infrastructure

## Conclusions - NUTS

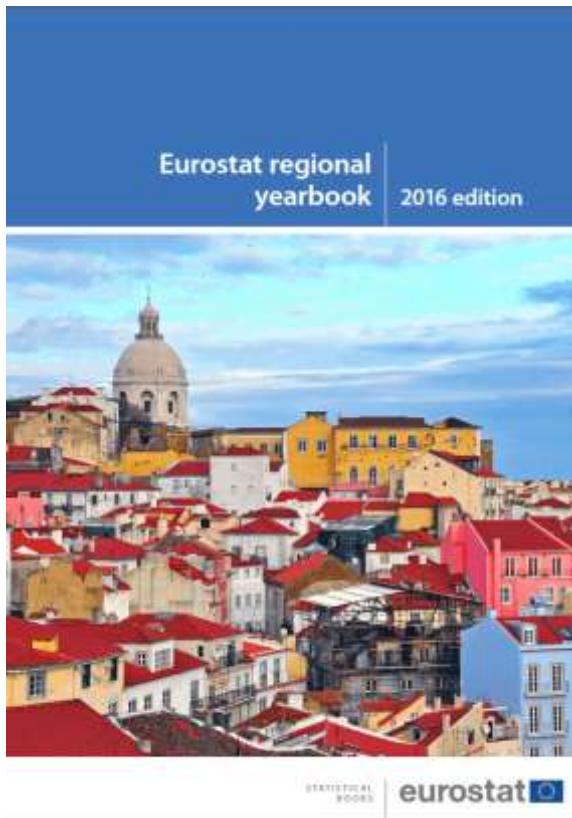

- regional statistics based on NUTS are widely used for territorial policies
- serve as the "backbone" of territorial statistics
- shall be safeguarded and further improved

# Conclusions – and Beyond

- **Functional geographies**
  - Labour Market areas
- **Legal recognition of typologies**
  - Amendment of NUTS Regulation
- **Integration of statistical and geospatial information**
  - Population grids
